PROFESSIONAL SUMMARY

An ambitious and distinguished Computer Engineer, professionally accredited by the Saudi Council of Engineers (SCE). Possesses a deep passion for Artificial Intelligence, Cybersecurity, and Data Analytics. Brings advanced practical and hands-on training experience from the Municipality of Hail Region, where I contributed to delivering smart, innovative solutions supporting digital transformation and technical advancement. Seeking a challenging role within the banking and financial IT/Computer Engineering sector to leverage my skills in programming, data analytics, IoT, and cloud infrastructure, contributing effectively to leading digital solutions aligned with Saudi Vision 2030.

PROFESSIONAL EXPERIENCE & TRAINING

Technical Engineer in Digital Transformation

December 2025 – June 2026

Amana of Hail Region (Tamheer Program - On-the-Job Training)

- Actively contributed to developing municipal technical systems and services to enhance the quality of digital experiences for end-users.
- Fully managed the implementation of Cloud Infrastructure Standard (No. 5.13) in compliance with the Digital Government Authority (DGA) measurement requirements, and drafted all relevant internal policies and technical reports.
- Designed user interfaces (UI/UX) for cloud infrastructure department devices and systems to ensure maximum utilization efficiency and a seamless user experience.
- Collaborated with cross-functional teams to design and develop an integrated digital platform serving the Municipality's digital transformation objectives.

Information Technology Trainee

June 2025 – August 2025

Amana of Hail Region (Cooperative University Training)

- Innovated and developed an IoT-based smart plant irrigation system to optimize resource consumption and enable smart automated control.
- Participated in enhancing and upgrading the complaints and suggestions management system to accelerate response times and boost performance efficiency.
- Supported the Municipality's digital transformation efforts by providing smart software and technical solutions for ongoing projects.

Field Survey Supervisor

2025

General Authority for Food Security (GAFS)

- Led field operations and comprehensive survey management to measure and model food loss and waste rates across the Hail Region.
- Collected and audited high-quality field data, and prepared the food waste balance report and authority-approved technical research to support national food security.

Business Solutions & Services Developer

2025

Taiba Business Solutions Company

- Drafted and monitored administrative operational plans and internal projects to ensure timeline adherence and milestone achievements.
- Supported senior management in strategic decision-making by preparing executive presentations, periodic reports, and technical data analysis.
- Continuously monitored the government "Etimad" platform, tracking tenders and government opportunities while analyzing their technical and administrative requirements.

EDUCATION

Bachelor of Computer Engineering

2020 – 2025

University of Hail – College of Computer Science and Engineering

- **Professional Memberships:** Certified Member of the Saudi Council of Engineers (SCE).

TECHNICAL SKILLS & COMPETENCIES

Data Analysis:	Advanced data cleaning and processing; designing interactive dashboards using **Excel** and **Power BI**.
UI/UX Design:	Engineering cloud application/website interfaces and user experiences using **Figma** and **Canva**.
Programming:	Proficient in **Python** for building and developing smart applications and software solutions.
Embedded Systems & IoT:	Programming and developing smart systems and electronic circuits using **Arduino** platforms and devices.
Cybersecurity & Cloud:	Advanced cyber threat awareness, risk mitigation, and implementation of **Cloud Security** standards and the **Zero Trust** model.
Artificial Intelligence:	Thorough understanding of **Prompt Engineering** concepts and generative AI applications.
Leadership & Thinking:	Complex technical problem-solving, critical thinking, project management (PMP principles), and field leadership.

TRAINING COURSES & CONFERENCES

- **Intensive Data Analysis Bootcamp** – Google Developer Student Clubs, Riyadh (2025).
- **Arduino Platform & Embedded Systems Basics** – Tuwaiq Academy, Riyadh (2025).
- **Generative AI & Prompt Engineering Fundamentals** – IBM, Coursera, and SDAIA.
- **Securing Your AI Strategy Course** – SCCC (Cloud Cybersecurity Center) by STC.
- **Cybersecurity, Information Security & Security Awareness** – SITE & Future Quadrants.
- **Cloud Computing Security & Policies** – Digital Giving Initiative.
- **Advanced Spreadsheet Skills for Data Analysis** – Human Resources Development Fund (HADAF).

- **Professional Project Management (PMP) Course** – Dar Al-Roya Training Center.
- **LEAP International Technology Conference** – Participant, Riyadh (2025).
- **NASA Space Apps Challenge** – International Competitor.
